We are opposing
this order as it
under the 25th July 1902
the municipality and
in days time, of
provision is made
in the Budget of
the current year
why not sanction
the establishment
until end of Dec.
It is not advisable
to establish it now

Order thereon.

~~It is proposed~~ The proposed con-
tinuance of the temporary es-
tablishment sanctioned in
the Govt. Proceedings read above
for an indefinite length
of time cannot be sanctioned.

It will be continued tenta-
tively for a further period of
6 months ending 31st July
1902, on the conditions laid
down therein. At the end of
the period, it should be re-
ported whether it is not
possible to do away with these

The P. & M. Comm.

(Comptroller)

With reference to the

3^d Councillor's observations
it is respectfully submitted
that the temporary con-
servancy establishment was
sanctioned in G. P. no. 4964-5
dated the 20th September '01 ^{27.12.01}
in the district under-
standing that the arrange-
ment involves no additional
cost to the Municipality
over and above what had
been provided for in the
Budget. As the last year's
provision under "Conservancy"
has been repeated in the
current year's Budget, the
continuance of the said
temporary establishment till
end of December 1902 seems
unobjectionable. A revised
draft

draft in accordance with
the 3^d Councilor's ^{order} suggestion
is, therefore, submitted for
approval.

Subject

Letter no. 133 dated the 16th January 1903 from the President of the Municipal Commission, Mysore City, regarding the continuance of the additional conservancy establishment of the Mysore City till the end of March 1903.

In letter no. 168 dated the 22nd August 1901 the President requested sanction to the Board's proposal to appoint 12 additional conservancy boys on Rs 2/- each a month and to raise the hire of the 31 rubbish carts by Rs 3/- each a month, and proposed to meet the extra charge of Rs 153/- out of the savings caused by the vacancy among sweepers.

2. The proposal was sanctioned tentatively for a period of 6 months from 1st August 1901 on the distinct understanding that it involved no extra cost to the Municipality;

(vide G.P. No

$$\begin{array}{r} + \\ 12 + 5 = 60 \\ 62 + 3 = 93 \\ \hline \text{Rs } 153 \end{array}$$

no 4964-5 dated the 20.9.01)
(7.12-01)

3. In March 1902, the President requested sanction to the temporary establishment being brought on the permanent list, as they were found quite necessary. (Letter 730 & 273.0.)

4 On this the President was asked to report whether his proposal was for having the said establishment over and above what had been sanctioned in the Budget for 1901-'02, and, if so, what necessity there was to fill up the vacancies among the sweepers ^{on the permanent list} from which a saving was expected sufficient to cover the cost of the temporary establishment. (socket

(sl4) no 17095* & 22.1.02)
(7.12-01)

5 The President replied that the vacancies among the sweepers on the permanent establishment were not filled up and that accordingly sanction of Govt was sought for for the continuance of the temporary establishment. (no 923 & 28th May '02)

6 The President was thereupon informed that the continuance of

temporary establishment ~~embodied~~ ~~has~~
 for an indefinite length of time could
 not be sanctioned, and it was ordered
 to be retained till the end of December 1902.
 (G.P. no. 1706-7 of 28.7.02).

7 With reference to this order the
 Municipal Board have resolved ~~that~~
 "that the Government be moved to con-
 tinue the temporary establishment till
 the end of March 1903 as the question
 has to be considered in connection with
 the further proposals called for from the
 Health Officer in view to the improve-
 ment of the conservancy arrangements
 of the Mohallas in which the plague
 has been most virulent".

8 The President has submitted a
 copy of the above resolution for approval.
 draft sanctioning the proposal is submitted
 for approval on other orders.

- (1) To what extent is the permanent Conservancy establishment short of the Sanctioned strength? ["] Although numerically there are more Sweepers than the Sanctioned strength, there is yet a saving of Rs 158⁺ per month under the head Conservancy establishment including the pay of (13) temporary peons who are now shown as sweepers in the Bareilly. The reason for this is that if adult Sweepers are not available boys or women are employed as they may be forthcoming and either the pay is apportioned amongst two persons or if a boy or woman is employed for a less pay, the balance is shown as Savings. This has been the long standing practice in this Municipality. But it does not appear to be correct.

the deficiency labour consequent on ~~made~~ intended various works in the city, to be made up? is so great that the wages that the Municipality offers do not attract able-bodied men as sweepers. The finances of the Municipality do not admit of a general increase to the pay of sweepers. Vacancies among sweepers are filled up as men are forthcoming to take up the job and these men leave us after short service. The vacancies cannot ~~be~~ therefore be filled up permanently on the scale of wages sanctioned in the budget."

(3) What is the saving thus effected? The President states that the budget allotment for 1903 or for Conservancy establishment is Rs 2,622 a month (including Rs 555 for 37 carts @ Rs 15 a cart) and that the amount disbursed for January 1904 was Rs 2,567 and that the savings effected were Rs 55. The answer is not full. The President ~~and~~ should have shown the actual expenditure for at least 12 months and shown the average savings per month.

The City Municipal Office
Mysore, 22nd Sept 1901

(1)

From

The President City
Municipal Commission
Mysore

To

The Secretary to the
Government of Mysore
General and Revenue Depts,

Sir,

I have the honor to state that in view of the increasing Plague mortality in the city of Mysore, the Board appointed a Sub-Committee to consider the present Conservancy arrangements and suggest practical improvements both in the existing Establishments and their working generally and the Sub Committee submitted a report recommending that 12 more Conservancy peons on Rs 5/- each a month may be appointed and the 31 Conservancy rubbish carts now existing may be given an increase of Rs 3/- each per month for reasons therein given and suggesting that this extra cost of Rs 153/- may be met out of the savings of Rs 165/- caused by the vacancies among Sweepers

who cannot be replaced for want
of this class of men in the city. The
Board have approved of these
proposals and a copy of their re-
-solution together with a copy of
the Sub-Committee's report is here-
-with submitted.

I consider that the
number of peons requires to be in-
-creased in order that each may
have a smaller circle to supervise,
so that each peon may remain
on the spot and exact full work
from the Sweepers and the Cart-
-men. The increase in the Cart-
-hire is also necessary to enable
the Cart-men to provide better
bullocks for the work. Owing to
the prevalence of Plague, the work-
-ing of this system has been put
in hand from the 1st of August
1901 in anticipation of sanction,
as it involves no extra expendi-
-ture to the Municipality.

I request therefore that
you will be good enough to obtain

the

the sanction of the Government for
the same. This will be tried as a
tentative measure for 6 months at
the end of which the necessity or
otherwise of confirming the same,
will be reported.

I have the honor to be,
Sir,
your most obedient servant

The President

City Municipal Board, Mysore

Sir—

With reference to the resolution No. 1 of the Proceedings of the Board, dated 29th June 1901, appointing a sub-Committee to Consider the present Conservancy arrangements and to suggest practical improvements both in the existing establishments and their working, we have the honour to submit the following report:—

1. That we Examined the accounts showing the particulars of the present number of Carts and Sweepers and also the supervision establishment.
2. That the 31 Conservancy Carts now engaged by the Municipality at Rs 15 each a month, remove only such of the rubbish as is refused by the villagers, being quite unfit for manure. The Carts and bullocks, especially the latter, being far below the mark, fail to discharge

not for a couple of days
dust-bins and other places where it is collected.

3.

The present rate of Rs 15 was fixed at a time when grass and gram were cheap. Since then there has been a steady increase in the rate. It is therefore proposed that the present rate may be raised to Rs 18 a month to secure better bullocks, able to make comparatively more trips and full sized carts, to remove more of the rubbish during each trip.

4.

There are at present 10 overseers and 19 Conservancy peons to supervise the work of Sweepers and Cart-men. The circles given to them being very large, they cannot see that the sweepers do their proper work. We recommend that 12 more peons in addition to the 19 already employed, may be appointed temporarily at Rs 5 each, that the circles entrusted to each may be reduced in area and that each may be placed in charge of a cart and not less than 8 Sweepers.

5

In the budget for the current
year

31 Carls at Rs 3 each a month

53
Total Rs

-Current year there is provision for 300 sweepers and 15 toties. Of these some Tirupattiy sweepers have absconded and some have died. Creating in all 22 Vacancies which will have to remain vacant for want of men. So there will be a saving of Rs 165 per month in the budget allotment under "conservancy". Out of this Rs 153 as per margin, may be spent on the extra establishment, yet leaving a balance of Rs 12 still available.

6

We recommend that the above proposals, may be sanctioned tentatively for 6 months. If they are found to work well they may be adopted permanently.

We have the honour etc

Sir,

✓ With reference to your letter
no. $\frac{2842}{2312-04}$ dated the 2nd February 1904 calling
for certain information regarding the
Temporary Conservancy establishment
sanctioned in Government Proceedings
no. $\frac{4694-5}{2312-01}$ dated the 20th September 1901, I
have the honor to state as follows:—

2. To the query as to what extent
the permanent conservancy establishment
is short of the sanctioned strength, I have

more ~~numerically~~ Sweepers than the sanctioned strength, there is yet a saving of Rs 158 per month under the head Conservancy establishment including the ^{temporary} pay of ~~persons~~ who are now shown as Sweepers in the Baravard. The reason for this is that if adult Sweepers are not available boys or women are employed as they may be forth-coming and either the pay is apportioned amongst two persons or if a boy or woman is employed for a less pay, the balance is shown as savings. This has been the longstanding practice in this Municipality.

3. With reference to para 2, I beg to state that the demand for unskilled labour consequent on various works in the city, is so great that the wages that the Municipality offers, do not attract able bodied men as Sweepers. The finances of the Municipality do not admit of a general increase to the pay of Sweepers. Vacancies among —
